Playful creativity can be a hallmark of the next three weeks, but only if you are willing to let it take its course wherever it leads. Don't expect to follow a straight track but go where things lead you until you start to establish a pattern. Only then can you get back to the main highway after an enlightening detour onto the scenic route. Don't be surprised if this muddies previously held opinions toward the end, as the new alternatives you will be finding will more than make up for any inconveniences or confusions experienced along the way.

A period of some delays, detours, and slowdowns has turned the corner and with a little more fine-tuning life operations will be not only back to normal but improved. Issues having to do with direction and creative focus begin to resolve themselves and turn out to have been only temporary delays, not fundamental problems. Once you have buttoned down the last of the recently arisen distractions, you can put your mind fully on the game and get back to being the you you always thought you were, only better. The exercise provided by internal troubleshooting and introspection brings you back stronger than ever.

At this kind of period, the usual joys of partnership may appear to have become a bit tarnished, so it's probably time to get out the polishing cloth. In some ways you may be

asking not for more than what you want, but what you don't want at all, and that cannot satisfy. If you depend on habit, relations cloy, for it is only what you know you want right now that ultimately fits the bill. So be willing to spend some time winnowing your relationships, keeping what really works and letting the rest pass. When clearly stated desires are again being addressed from both sides, that's when life begins again.

If you're not sure of what you want out of someone, it can be hard to get it, an ordinarily easy give-and-take lately may have become more like push-and-pull. First, refigure out what it is you want to ask of a partner, then put it out clearly so there are no mistakes. That means as much knowing what you aren't asking for as what you are. Imagined or illusory expectations can make a muddle of things, but as you focus on your real desires, the small stuff starts to fade into the background, allowing real dialogue to begin. When you know what to ask for, others become the resources you would like them to be.

Sometimes painting life with a broad brush can cause you to miss messy details that then slow you down. The next three weeks are a great time to pause and make sure the rug rats

and ankle biters are not in a position to sidetrack your whole operation because you ignored them. It's time to give the small things their due so they can serve your larger purpose. By doing so, you may discover a better version of your own vision as well. Don't hurry, you've got time, and you may find that in the end tapping resources you had ignored will trigger a rising tide that floats all boats, not just your own.

After a few weeks of uncertainty about the big picture, your panorama on life returns somewhat amended. False starts have led to a focus on correcting details that have distracted from the overall plan, but these are being put behind you so you can return to your former path with a steadier hand on the helm. What you are putting together now will shortly have a direct effect on what people will be saying about you and your career plans, so don't toss off your ideas lightly. You will have the opportunity to impact your surroundings more than you think if you choose to, but you must make the choice.

This begins a three-week period during which you have the opportunity to refine and perhaps

repurpose the way you project yourself in your surroundings. Round off the raw edges and pull in any potential entanglements that might be slowing you down. You have not only the right, but sometimes the obligation, to change your mind in order to insure consistency and personal impact. Toward the end, this may particularly include tightening up solutions to previously resolved issues to be sure they are well in hand. When you've got all your ducks in a row, you won't have to look back.

After three weeks of readjustment, you can start getting plans back into shape for going ahead, which includes some new feathers put on your personal image. You may find you have discovered some improved ways of fitting your own leadership into the mix, which will firm up during the next few weeks and everyday rhythms get renormalized. Although it might not have seemed so a couple of weeks ago, you're increasingly glad to have had the opportunity to edit your life a bit so you can better exploit your position both socially and financially during the next month or so. Some changes will be momentary, but some will last.

It may be hard not to seem to be at odds with usually friendly forces during this period, as everyone is casting about to get something done and progress is slow. It's easy for you to blame your friends (and they you) for failures that are really just bumps in a shared road. Remind yourself that comradeship is more lasting than a passing storm, and you'll all be around when the weather clears. Sometimes you can become too wrapped up in promoting your own image to see who and where that image came from. When you have to push, push together -- it's not only easier that way, you've all already done it before.

Mars Conjunct Moon (Retrograde)

As Mars turns around on your natal Moon, issues that arouse anger and annoyance may come to the fore, and there is no time like the moment to ferret them out and dispense with them. But that works on two levels. First, there are things which truly waste energy and siphon off your ability to get on with life, and these you should identify and kiss goodbye. Second, there may be situations that rouse your ire because you aren't facing up to them and

they remind you of your own reluctance to clear things up. These you must embrace and work through until they lose their stigma and become part of the regular flow.

Mars Conjunct Uranus (Retrograde)

Mars pulling back from your Uranus may save you from hasty decisions, but it might not seem that way at first. The urge to jump into the fray can be so strong that you miss the obvious. Take the time to retool your ingenuity and develop the practical side of your inspirations before putting them to the test without a safety net. Test not only your accelerator, but your brakes, so you have full control before you charge ahead -- you'll be thankful you did. Develop greater precision and accuracy before you fire, or you'll waste ammo. One shot at your target will be all you need, if you take more careful aim.

Pushing hard to garner support may not have been having the intended effect lately, but feelings of being stalled by the roadside are about to give way to the sounds of busy traffic. Remember that your backing may not always come from what you simply seek yourself but from that which is awarded to you on your merits, ones you may not even be aware of. Do not grasp, but let others seek you out for your strong points, and you will find their energies shore you up and propel you on when you need to take some of the burden off your own shoulders.

Mars Conjunct Uranus

Mars turning about on your Uranus can bring unexpected discoveries and, unless you play it easy, a stop-and-go, bumpy ride. Expect the spigot to be off or on and not much in between for a while, a sputtering rhythm that can be fun if you go with it, but annoying if you try to buck it. Allow yourself to be catapulted to where you're going and you'll go further -- like a roller coaster, it's best to let it take you wherever it goes, even if you shriek a little. At the end of the ride you'll be back with your feet on the ground and requests to go another round.

Mars Conjunct Moon

Mars turning direct on your Moon can be an emotional challenge and an opportunity to learn restraint and rechannel anger. Recent frustrations can too easily be turned to conflict just as resolution is in sight, so keep a steady hand on the helm and let those about you lose their heads without joining in. If successful, what begins as forbearance leads to relief and a feeling that you have been tested and have passed with flying colors. Use physical exercise to release stress and trim away energy-wasters that slow you down and tire you out. Focus, patience, and endurance are the watchwords.

The next three weeks may cause you to step back and rethink your course and reset your bearings to make sure you are really on the course you intended. Do not hesitate to question fundamental values in order to get to the heart of what you believe and resolve inner conflicts that may arise. Small insights can net you large gains, particularly in the future stability of your ship. Rock your own boat before others do, and you'll be the better off for it. By the end, you may find risk reevaluation highly useful, particularly when you depend on others to evolve into what you will lean on in the future.
